\* JobTisch is an ergonomic workdesk solution engineered by Häfele

---

# WORK SMART, NOT HARD. WITH THE ERGONOMIC OFFICE WORKSPACE FOR HOME USE.

And just like that, the world stood still, ready to start turning again in a new direction. But what does the “new normal” look like? Working from home, you might find yourself anywhere from the kitchen table to the study to the dining room. Full time, part time, or day by day.

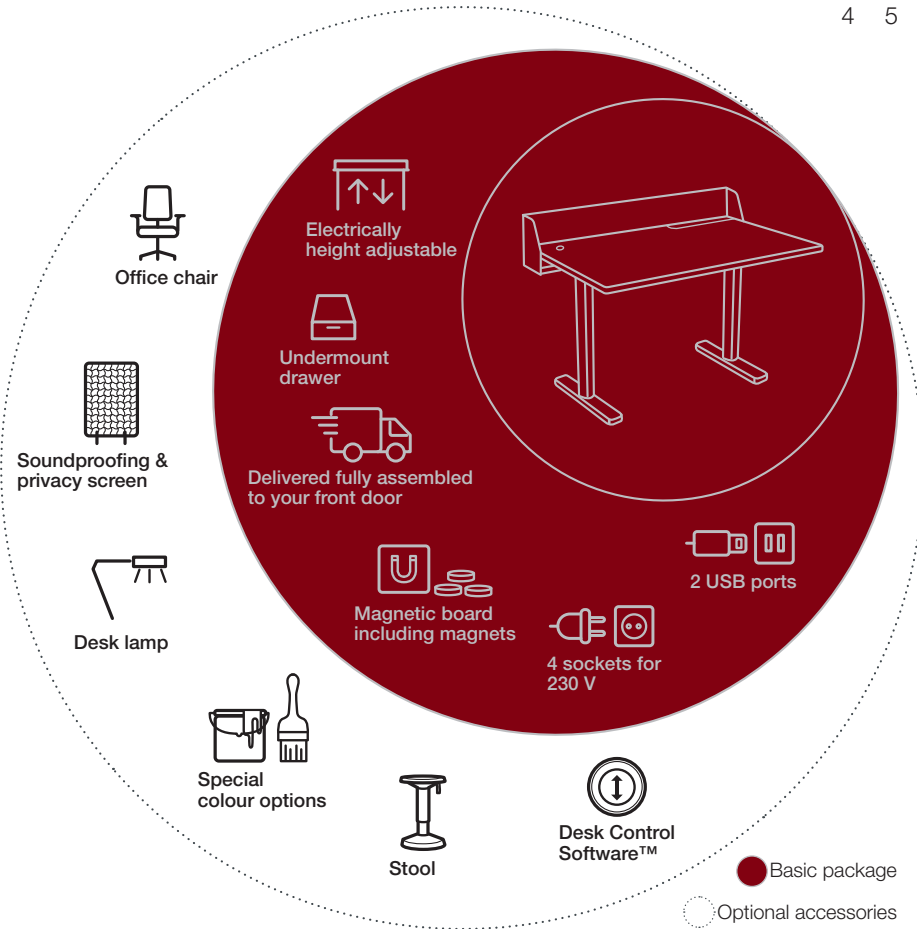

Häfele has come up with the perfect solution in the form of the JobTisch, whose design and functionality blend seamlessly into any living environment while also being good for your health. Further information – including details on funding schemes – is available from [www.hafele.com/en/jobtisch](http://www.hafele.com/en/jobtisch)

## THE PERFECT SOLUTION THAT HAS IT ALL.

The basic package includes the electrically height adjustable table complete with plenty of power connections, an undermount drawer, and a magnetic board including magnets.

The ergonomic workspace with its exclusive design is delivered fully assembled right to your front door. Plug and play functionality means it couldn't be easier to set up, connect and get to work.

The basic package can even be enhanced with your choice of complementary ergonomic accessories. Working from home has never looked – or felt – so good.

Häfele JobTisch 900 x 660.

## HÄFELE JOBTISCH. THE ADVANTAGES.

- > Integrated undermount drawer offers storage space for equipment.
- > Integrated power strip including two USB ports provides a power supply for all devices with ergonomic access from above.
- > Compliance with all relevant safety standards. The collision protection feature also helps to keep children safe.
- > The Roxxane desk lamp from Nimbus can also be retrofitted to the table top with a universal adapter.
- > German quality with a 5-year guarantee.

# DESIGN, ERGONOMICS, ATMOSPHERE.

## Stool.

- > Mobility and movement at the workstation.
- > Non-slip base plate for fuss-free seating comfort.
- > Continuously height adjustable via hand strap.
- > Sustainable production with 50% recycled materials.

## Office chair.

- > Stability for the spinal column with height adjustable support in the lumbar region.
- > Individually height and width adjustable armrests with quick-release functionality.
- > Additional seat inclination and seat depth adjustment options for maximum comfort.
- > Excellent durability offered by the padded seat and backrest.
- > Encourages an ergonomic seating position to prevent back pain.

**Versatile and individual.**

---

**Roxxane luminaire from  
Nimbus.**

- > Perfect illumination with a luminous flux of 900 lumens.
- > Touchless gesture control for intuitive operation and dimming.
- > Power dimming guarantees that the luminaire remains 100 per cent flicker-free during video conferences.
- > Ergonomic operation thanks to the excellent mobility provided by the friction joints and the 3D joint head.

---

**Soundproofing and  
screens.**

- > Modular room separation in four practical formats.
- > Sound-insulating and sound-absorbing.
- > Installation without tools and perfect integration thanks to nine colour options.
- > Ideal conditions for focused and communicative working.

---
